

2025, September

Notice of Revision to Shipping-Related Service Charges

Dear Valued Customer,

We hope this message finds you well.

We sincerely appreciate your continued patronage and support.

Due to the recent surge in overall prices and the sharp increase in logistics-related costs, combined with the ongoing labor shortages among port-related service providers, it has become extremely difficult for us to maintain our current fee structure.

Until now, we have prioritized customer convenience and provided certain tasks and services free of charge. However, the costs we have been absorbing internally through our own efforts have now reached their limit due to the recent sharp increase in expenses. We have therefore determined that it is necessary to revise our pricing structure, including introducing charges for services that were previously provided free of charge, in order to continue delivering stable and reliable services.

Accordingly, we regret to inform you that the new pricing structure will be applied starting from the **vessel VIKING DRIVE V-34 scheduled in October 2025.**

Please refer to the attached document for the details of the revised charges.

We understand that this revision may cause inconvenience, but it is an unavoidable decision to ensure the continued provision of stable and high-quality services.

We sincerely appreciate your understanding and continued support.

Sincerely,

SEVEN SEALS Co., Ltd.
Executive Managing Director
Ryomei Takahashi
